## SUMMARY

12th year 5-time pro bowl veteran RB who has started 174 of 188 games, including post-season, 2nd season in OC Rod Chudzinski's Air Coryell offense utilizing both Gap and Zone blocking schemes. Oldest starting NFL RB (34). Possesses good weight and adequate height along a sturdy frame with a thick lower half displaying solid overall AA with good balance, solid short area quickness and lateral agility, and adequate explosiveness. Displays elite mental processing, head is constantly on a swivel pre-snap reading defensive alignments, quickly detects defensive movements post-snap and displays elite vision, good play speed, and good burst within the tackles in both Gap and Zone schemes, capitalizes on his smaller height hiding and staying tight behind blockers, very decisive to the hole, gets ahead of his Down blockers during Gap run concepts while still utilizing enough patience to read his lead FB/puller during Power runs, presses LOS reading his blockers leverages vs. defenders to execute the optimal cut during Zone run concepts, especially one-cuts during Inside Zone runs. Displays very good finish ability and play strength, can carry a pile, consistently maintains balance through contact and finishes runs forward with his naturally low center of gravity and punishing leg drive stemming from very good lower body strength, especially within the trenches and when he lowers his helmet. Displays elite competitive toughness, aggressive runner that never shies away from contact and is very reliable on critical short-yard conversions, especially for someone his size. Good blocker, anchors pocket fearlessly giving his QB time to throw, explodes from his hips utilizing low leverage and drives his hands in the pass rushers chestplate stopping bigger sized DB's and average sized LB's in their tracks. Good ball security, keeps ball tight against his solar plexus before anticipating contact, 0 fumbles when ball is covered with both hands through contact to the ground. Good in passing game, primarily utilized as a checkdown (Swing, Flat, and Sit routes) and got Screen looks throughout the season, creates separation vs. solid LB's in Man Coverage catching the ball away from his body with good hands and enough balance to gather himself and maintain forward momentum to create yards after the catch. Saw limited looks on runs outside the tackles out of both Gap and Zone schemes (Outside Zone, Toss, Swing) and as an intermediate/long route receiving back (angle, wheel, or seam routes), lack of home-run threat ability, age was evident displaying adequate explosiveness, burst, and long speed to separate and beat out good or better defenders to the sideline. Overall, a bruising 2-down starting veteran RB that excels in both Gap or Zone run schemes inside the tackles with his elite mental processing, vision, and very good finish ability. Lacks explosiveness, burst, and long speed to be consistently effective on outside runs and as a 3rd and long receiving back, especially at his age.
