--------------	--

BEST	Vision, Blocking, Burst, Play Speed, Competitive Toughness
------	--

WORST	High Pad Level, Creating Separation on Routes
-------	---

PROJECTION	Starting RB with the potential to be a feature running back that you can win because of. He uses good vision on both Zone and Power Plays to find creases in the defense to gain positive yards with a good ability in the passing game as a blocker to anchor and keep pocket integrity. Struggles with high pad level when running in space allowing solid defenders to get lower than him and drive him back.
------------	--

SCHEME FIT	System that utilizes both Zone and Power running games operating the back as a receiver and blocker in the passing game.
------------	--

SUMMARY

2nd year RB that has started 23 of 32 games in his career. In 2015, he played in Hue Jackson's offense that displayed Exotic Formations and Shifts with mainly a Power Running Scheme mixing in some IZ and OZ Runs. He split touches with Giovani Bernard and was used mainly as the Back on 1st and 2nd downs because of Bernard's skill set. He ran well from I-formation, Single Back, and Shotgun sets and lined up at the wide receiver spot in Empty Sets. Very good height, weight, and hand size with good AA having very good balance, good quickness and agility, and solid explosiveness. Good mental processing to know his assignment and key to execute at a high level in both the run and pass. Good vision to press his key/gap with a solid ability to create when the play breaks down by making instinctual decisions based on the picture unfolding in front of him to continue downhill, cutback, or bounce the ball outside in both Power and Zone Running Schemes. He exhibits good burst to hit the crease/hole at the precise time to maximize the IZ and Inside Power plays, and he has the quickness to beat good LBs and DBs to the corner on OZ and Sweeps. Demonstrates good play speed through the line on Draw Plays, out of his cuts to get past 2nd level defenders, and on Outside runs. Displays solid ball security carrying the ball high and tight close to his body. Good physical toughness to hustle and block down field on WR screens and drive the pile by keeping his feet moving after contact. Good mental toughness to stay in bounds when his team is ahead to continue running the clock and relentless effort to get in the Endzone. Solid ability to finish with a stiff arm to break tackles from solid tacklers and lowering his pads to find creases in tight spaces to maximize the yards after contact. Shows solid play strength to run behind his pads having good balance under contact with a solid ability to finish runs forward for yards after contact. Very Good ability to know who he needs to block in the passing game with the willingness to take on any defender and has the ability to cut/anchor the pocket vs good Pass Rushers and Blitzing LBs/DBs. Good ability to catch the ball away from his body and gather himself to create plays after the catch by breaking tackles and making good lateral movements to generate yards after the catch. He struggles with high pad level when running in open space limiting his explosiveness to run past and through defenders. Has had fumbling issues due to his lack of awareness of where defenders are when running, which leads to him not covering the ball with both hands and arms when coming into unsuspected contact with defenders. Has trouble consistently creating separation on routes from the backfield because his high pad level limits his ability to change direction quickly, which allows solid LBs to stay in his hip pocket. Starting RB with the potential to be a feature running back that you can win because of. He uses good vision on both Zone and Power Plays to find creases in the defense to gain positive yards with a good ability in the passing game as a blocker to anchor and keep pocket integrity. Struggles with high pad level when running in space allowing solid defenders to get lower than him and drive him back.
