### TAPES VIEWED

**2018:** @NYG 9/9, NE 9/16, NYJ 9/30, @KC 10/7, HOU 10/21

### BEST

Quickness, COD, Vision/Create, Elusiveness, Pass catching out of the Backfield

### WORST

Pass Protection

### PROJECTION

Backup/rotational RB that you can win with who is most valuable in the passing game as a consistent receiving threat that can be lined up in the Backfield, Slot or on the Outside where he can win 1 on 1 match-ups against LBs and Safeties with quickness and COD.

### SCHEME FIT

Any Spread offense where he can utilize his route running and separation ability in short and intermediate routes out of the backfield.

## SUMMARY

4th year RB who has started 30 of 53 career games. In 2018, started 5 of 14 games, missing no games due to injury. 2nd year playing under RB coach Tyrone Wheatley and OC Nathaniel Hackett within a gap-heavy run scheme that is complemented with a play-action passing game. Very good height and weight with a lean, athletic build, displaying good AA with good quickness, agility, COD and short area burst. On both Gap, Inside and Outside Zone runs, shows patience as he approaches LOS, showing good vision when reading the leverage of 1st level Combo, Reach blockers and Base blocks, making decisive cuts upfield with squared shoulders and low pad level, showing solid burst through small creases to gain additional yardage with solid balance and strength. Shows good vision, quickness and COD to bounce runs to the outside and cut back. When in the open field, uses good quickness and agility to elude initial approaching defender. Upon contact shows solid play strength to gain 1-2 additional yards against smaller LBs and Secondary defenders. Good ability to separate in Man coverage against good LBs using good quickness and COD on Choice routes where he has a 2-way go. On Swing routes, shows good quickness to out leverage LBs and Safeties. On Underneath routes, good ability to locate and sit in open holes in Zone coverages. Demonstrates good hands, with good ability to catch balls thrown within strike zone, while also showing good ability to adjust to balls low and behind him. Good runner after the catch showing good burst, quickness and agility to make first defenders (LBs and Safeties) miss. Adequate in Pass protection, showing hesitancy and a lack of consistent desire when blocking LBs and Safeties coming through interior Gaps and off the Edge. Solid ability to scan formation and locate his blocking assignment. Tendency to position body with a Narrow base when anchoring, showing adequate hand quickness and strength to get hands inside resulting in an inability to consistently anchor. Overall, he is a backup/rotational RB that you can win with who is most valuable in the passing game as a receiver that can be lined up in the Backfield, Slot or on the Outside where he can win 1 on 1 match-ups against LBs and Safeties with quickness and COD.
